SOYUT CONSTRUCTION & ENGINEERING CO. INC. has been established as a company of SOYUT Group of Companies in 1974 in Ankara. Until mid-90s, the company has basically undertaken the projections and construction of all types of industrial plants, engineering services, turn-key projects in the fields of production and mounting of mechanics. Thenafter, the company has enlarged its scope of business and shifted to other areas such as construction, mass-construction, furniture production, architecture and interior design services, caravan and yacht manufacturing.

SOYKAR Caravans have been manufactured since 1998 by the experienced and dynamic team within SOYUT CONSTRUCTION & ENGINEERING CO. INC. in the unique production plant. The caravans draw special attention in the domestic and foreign markets with their modern design and supreme technology. All parts and components of the caravans are being manufactured in SOYUT's own production facilities with mass-production techniques. SOYKAR Team that includes young and passionate designers, open-minded project developers, experienced production craftsmen and problem-solving customer services staff consider the process of manufacturing of SOYKAR Caravans not only a mere production but also an advanced and complicated service activity. This is why they all aim that SOYKAR Caravans are unique type of living beginning from the sales to the service, from accommodation to customer support and info lines, from festivals to various organizations.

An innovative mobile design to fully satisfy your long term lodging requirements in a luxurious way is being brought to you by Soykar.
